

ABOUT INSUROPE

Single employer solution with the highest pool protection level

We are one of the longest established global pooling networks with over 50 years of multinational experience. We partner with many of the world's leading employee benefits specialists and have a global presence in over 100 countries serving more than 800 multinational clients with 4,500 pooled country plans.

What is pooling?

Multinational pooling offers clients the potential to realize economies of scale and reduce the cost of their employee benefits provision through the payment of multinational dividends.

The multinational company places their insurance policies with the Insurope Network Members in each country. These policies are then combined to form the Insurope pool. Importantly, in each country these policies remain insured with local insurers and so benefit from local terms and conditions, administration and claims settlement. At

the end of each accounting period, the local results are consolidated, where claims and expenses for each country within the pool are offset against premiums, to calculate the overall multinational account result.

Insurope offers seven standalone pooling systems, which provide different levels of protection. The most suitable type of pool is determined based on size and attitude towards risk.

What is Stop Loss?

Stop Loss provides full protection of your multinational account result. It is a single employer pooling system in which a multinational dividend is paid annually. Any loss in the multinational account in any year is automatically fully cancelled by the Insurope Network. Stop Loss offers the greatest benefit to multinational organisations that are more likely to experience greater volatility in claims or are more risk averse.

Stop Loss performance over the last 5 years:

- 41% of our SL clients on average produce a positive result each year
- 100% of these clients received a dividend
- 4.5% of premiums returned as dividend in the last 5 years

Stop Loss solutions have a **proven track record** and **excellent client service**.

98%

of clients would recommend Insurope's services to other corporations.

Joining Stop Loss

Are you a multinational company with at least 2 countries and 1,000 employees insured for death or disability by Insurope Network Members and want to enjoy the highest protection level?

Join Stop Loss!

If you are not already enjoying the benefits of pooling, get in touch today. Send us an email at info@insurope.com. We will get in touch to discuss the benefits of setting up a pooling arrangement with a possible dividend return and the wider benefits of multinational pooling.
